DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on April 28, 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicants have elected the specie of compound, 2-(3-trifluoromethylphenyl)-alpha-2-propenyl-benzenemethanamine,

2-(3-trifluoromethylphenyl)-alpha-2-propenyl-benzenemethanamine

which is compound (34) found on page 90 of the instant specification. However, the elected species is not embraced by formula (I) on pages 1-2 of the instant specification. Compounds of formula (I) are the only compounds that have utility in the instant specification. It would appear that the elected species is a reactant/starting material for making other final products. If Applicants contend that the elected specie does have utility for the instant claimed method of use, Applicants are required to indicate where in the instant specification {page number(s) and line number(s)} support is found for the claimed utility of the elected species of compound 34. See 37 CFR 1.111.

Since the above-mentioned reply appears to be *bona fide*, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
